We were very pleased with Robson Crushing & Demolition Inc. last week when they filled in our sizable in ground pool. It was a difficult operation because there was limited access through a garden gate. We were very impressed with the innovative and speedy system of bringing in the sand and soil to the backyard. Our hedge, sidewalks, house and garden were undamaged. The workers were friendly and efficient, finishing in two days instead of three. They left the worksite, driveway and road clean at the end of each day. We highly recommend this company for big jobs of this sort.
